

AUSTRALIAN BUREAU OF STATISTICS  
CANBERRA

EMBARGO: 11 A.M. 25 SEPTEMBER 1975

Reference No. 6.27

## INDUSTRIAL DISPUTES, JUNE 1975

### MAIN FEATURES

- In June 1975 there were 239 industrial disputes involving 413,200 employees and resulting in a loss of 635,300 working days.

The main disputes in June related principally to claims for increased wages and involved —

- Metal trades employees in most States.
- Coal miners in N.S.W. and Queensland.
- Building workers in Victoria.
- Storemen and packers in Victoria.
- In the June quarter there were 1,556,200 working days lost compared with 1,730,800 in the June quarter of 1974 and 860,000 in June quarter 1973.

### EXPLANATORY NOTES

This bulletin contains statistics of industrial disputes for the month of June 1975 and some previous periods. More information about these disputes will appear later in the detailed quarterly bulletin *Industrial Disputes* (Reference No. 6.6).

2. The statistics of industrial disputes are compiled according to the Australian Standard Industrial Classification (ASIC), described in the Bureau publication *Australian Standard Industrial Classification (Preliminary Edition)*, 1969, Vol. 1. Statistics on this basis are published in *Labour Report* No. 58, 1973 (Reference No. 6.7).

3. The statistics of industrial disputes refer only to disputes involving stoppages of work of ten man-days or

more. Workers involved include workers directly and indirectly involved in disputes. Workers indirectly involved are employees thrown out of work at the establishments where the stoppages occurred but not themselves parties to the dispute. Particulars of some stoppages (e.g. those involving a large number of establishments) may be estimated and the statistics therefore should be regarded as giving a broad measure of the extent of stoppages of work (as defined).

4. Stoppages of work occurring at different times and at different establishments but due to the same cause may be regarded as one industrial dispute. However, an industrial dispute occurring in more than one State is counted as a separate dispute in each State. A dispute involving workers in more than one industry in a State or Territory is counted only once in the number of disputes — in the industry that has the largest number of workers involved; but workers involved, working days lost and estimated loss in wages are allocated to their respective industries. Disputes not settled at the end of a year are included as new disputes in the figures for the following year. The monthly statistics refer to all disputes operative in the month, including those disputes that commenced in previous months. In Table 1 details of the number of disputes and workers involved are shown separately for disputes beginning in the month and for all disputes. Average days lost per worker involved on a monthly basis are not comparable with the yearly averages, because workers involved are included in each month in which they are involved in disputes, while they are counted once only for each dispute in the annual figures. Any discrepancies between totals and sums of components are due to rounding.

5. For statistics of industrial disputes for earlier periods see *Labour Report* No. 58, 1973 (Reference No. 6.7).

TABLE 1. - INDUSTRIAL DISPUTES : AUSTRALIA

Period	Number of disputes		Workers involved ('000)		Working days lost		Estimated loss in wages (a) (\$'000)
	Beginning in month	Total (a)	Beginning in month	Total (a)	Number (a) ('000)	Average days per worker involved (b)	
1969	..	2,014	..	1,285.2	1,958.0	1.5	22,985.7
